Education

Southwest Minnesota State University, Marshall, MN
Bachelor of Science in Management | GPA: 3.42

Skills

- Support individuals with daily living tasks, promoting independence and dignity.
- Administer medications and monitor health, ensuring proper documentation.
- Assist with mobility, hygiene, and personal care in a respectful manner.
- Encourage social engagement and community participation through activities.
- Communicate with families and healthcare teams to coordinate care.

Computer Skills

Proficient in Microsoft Office Suite (Word, Excel, PowerPoint, Outlook) | Strong typing skills

Experiences

Direct Support Professional, Sevita, Marshall, MN (Jan 2021–Oct 2023):

- Supported individuals with developmental and intellectual disabilities in activities of daily living (ADLs), including personal care, hygiene, meal preparation, mobility assistance, and medication administration while promoting dignity and independence.
- Implemented individualized support plans (ISPs) and behavior support plans to assist clients with life skills development, emotional regulation, and community integration.
- Monitored client behaviors, health status, and medication effects, accurately documenting observations and reporting changes to supervisors and healthcare professionals.
- Facilitated social, recreational, and skill-building activities to enhance independence, communication skills, and overall quality of life.
- Maintained a safe, structured, and supportive environment by following state regulations, agency policies, and person-centered care standards.
- Collaborated with case managers, nurses, guardians, and interdisciplinary teams to ensure continuity of care and goal progression.

Direct Support Professional, Prairie Community Services, Marshall, MN (Oct 2024–Present):

- Provide direct care and emotional support to individuals with mental illness and disabilities, assisting with daily living skills, routines, and coping strategies to promote stability and independence.
- Administer medications and monitor for side effects or behavioral changes, ensuring accurate documentation and timely communication with clinical teams.
- Respond to behavioral crises and de-escalation situations using approved intervention techniques to ensure client and staff safety.
- Conduct overnight supervision, safety checks, and environmental monitoring to maintain a secure and supportive living setting.
- Document daily progress notes, incident reports, and care updates in compliance with agency and state requirements.
- Build therapeutic relationships with clients, encouraging engagement, trust, and consistency in care delivery.

Direct Support Professional, Forward Focus, Marshall, MN (Oct 2024–Present):

- Support individuals with mental health conditions and developmental disabilities by assisting with ADLs, emotional regulation, and structured daily routines.
- Implement individualized care plans, providing behavioral support, skill coaching, and community-based assistance aligned with person-centered goals.
- Monitor client behavior, mental health symptoms, and medication adherence, reporting concerns promptly to supervisors and healthcare providers.
- Assist with crisis intervention and behavioral support using trauma-informed and recovery-oriented approaches.
- Ensure client safety through consistent supervision, overnight monitoring, and adherence to safety protocols.
- Maintain detailed and accurate documentation to support continuity of care and regulatory compliance.
